Swedish Research of the Library Computers

The following Swedish resources can be accessed from the Desktop:

1. Swedish Death Index, 1901-2009: This database finds people who have died in Sweden during these years. Click on the American flag in the upper right for English. Then click on Search in the lower left. Fill in the blanks, clicking on the Swedish letters in the lower right if necessary. Then click GO. Read the choices and click to get more information.
2. Emibas: This is a database of people who have left Sweden and are listed in the Household Records kept by the churches. You can often find the emigrant with his family just before he left Sweden.
3. Emigrant Populär: This is a database of the records of Swedes leaving the main seaports of Sweden. The directions are in Swedish. Begin by filling in the blanks in the upper left with last name, first name, parish, and year of emigration. Click on Sök for Search. Then click on Hel Post for more information.
4. Genline: This website has the actual Swedish Church Records from all of the parishes of Sweden. Click on Genline, then Continue. In the Search Window, click Select to see a list of Counties and click on the right one. Then click Select to see a list of Parishes. Click on the right one. Click Search near the bottom. On the left are all the church records available for that parish. Click on the one you want to see and the pages will be on the right. Double-click on the page you want. You can close the search box and turn pages with arrows on the top.
5. Swedish Census: (for years 1880, 1890, and 1900) Double-click on Internet Explorer and choose Swedish Census, on the lower left of Bookmarks. Toward the right side, there is a section called Databases. The second on the list is Census. Click on Census. Find the County and the year you want and click on it. (EX. Blekinge County 1880) Then fill in the information and search. You can make your search more specific if you also know the parish. But that is not absolutely necessary.
