

# TERRY ARMSTRONG

## PA OF SIGNUM OPS

Signum Ops is an imprint, where we have the pleasure of representing a number of accomplished professionals who have a story to tell as a result of many years in their respective fields. We have produced an array of titles dealing with treasure, salvage, shipwrecks, and dive travelogues. Our library contains hundreds of out-of-print books dealing with the topics of treasure, treasure hunting, marine salvage, archaeological reports, maps and original maps. A number of authors have extensive experience salvaging and documenting the 1733, 1715, and 1622 Spanish fleets lost in Florida. Terry himself has co-authored many of the books. All books can be bought on [Amazon.com](http://Amazon.com).
